

Farne

A family of soft upholstered islands that add character to a space.

orangebox

Product Description

Farne is a family of soft upholstered islands that add character to a space through their simple but beautiful form. Whether used in small groups to compliment sofa configurations, or specified in large clusters of varying sizes, they are comfortable additions to the workplace as an ad-hoc place to perch.

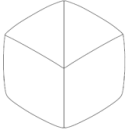

Farne's diagonal stitch detail is not only an elegant design characteristic, but it also helps improve the fabric yield and cuts down on waste. They can be specified on either glides as standard, or castors for ease of manoeuvrability.
