

RH MEREEO MESH

DESIGNED FOR HUMAN PERFORMANCE

A brand by Flokk

Match yourself

WITH RH MEREIO MESH

Your chair should fit more than your body, it should fit your personality. With RH Mereo Mesh you can choose from 15 distinct colours, each designed to reflect different taste and preferences. Bold or neutral, expressive or calm, there's a shade for every way of working.

Match yourself. Perform at your best.

Colour reflects who we are and how we work.

With 15 shades to choose from, each brings a distinct expression. Some calm and neutral, others bold and expressive. Together, they form a mesh palette designed for clarity, contrast, and long-term relevance.

RH Mereo mesh comes with castors for soft floors as standard. It can be enhanced with various options for the perfect fit.

Black – black-lacquered aluminium with black plastic details

Silver – silver-lacquered aluminium with black plastic details

Silver Grey – polished aluminium with light grey plastic details

RH Mereo Mesh Black
Colour: Dusty pink

RH Mereo Mesh Silver

RH Mereo Mesh Silver Grey
Colour: Safran Yellow

PERFORM AT YOUR BEST

The RH Mereo Mesh adapts to your body, keeping energy high and focus sharp from morning to evening. With intuitive ergonomic adjustments and a sleek, modern design, it offers personalized comfort whether shared across teams or used individually.

Built to support you throughout the day, the RH Mereo Mesh empowers you to match yourself, stay comfortable, cool and perform at your best.

COOL COMFORT

RH Mereo Mesh offers breathability that keeps you cool during long work sessions, while adaptive support follows your movements and posture. Its crafted texture and natural expression bring warmth and style to any workspace.

PERFORMANCE • DESIGNED FOR HUMAN

DESIGN MEETS ERGONOMICS

The RH Mereo is designed to combine ergonomic innovation, intuitive use, visual elegance, and sustainability. It adapts to diverse users, supports healthy movement, and reflects Flokk's values of durability, recyclability, and responsible design.

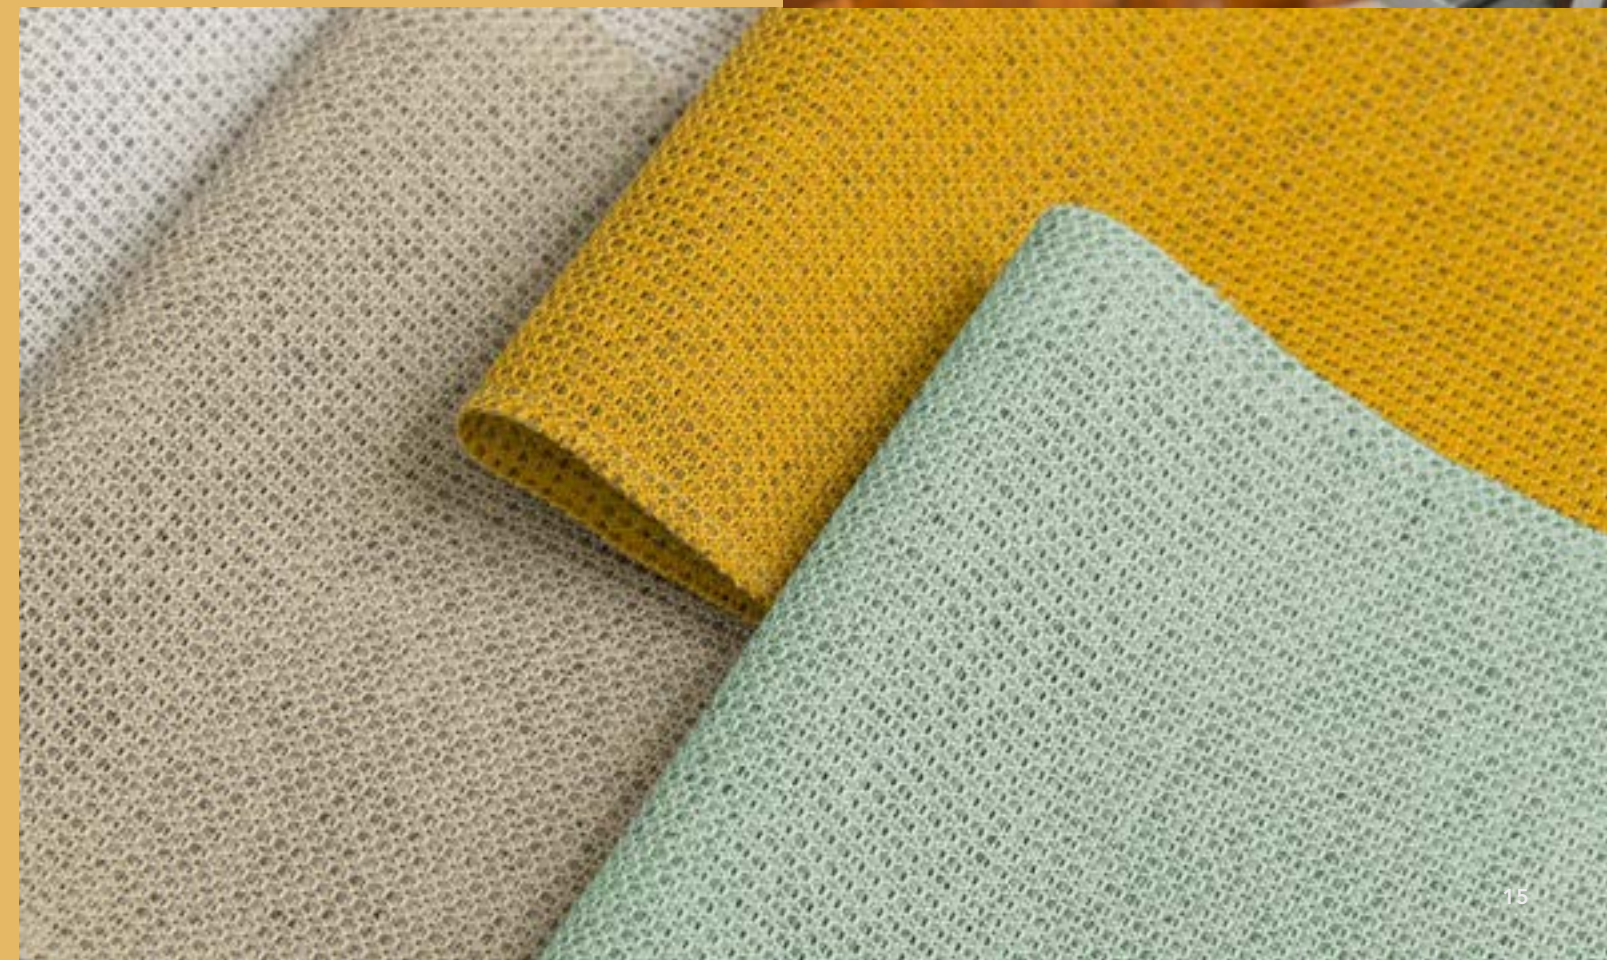

The RH Mereo Mesh was developed with Fjaryl, a Stockholm design studio known for combining ergonomics, aesthetics, and innovation. Together with Flokk's Design Team, they turn complex challenges into elegant, sustainable solutions.

WOVEN FROM WASTE, BUILT TO LAST

DESIGNED FOR HUMAN PERFORMANCE

The mesh fabric Tale is made from 100% post-consumer recycled polyester - durable, fully recyclable, and made primarily from clear plastic bottles for a lighter footprint. The lumbar support is upholstered in Tonal, a fabric with the same sustainability benefits and a predefined colour that matches the chosen Tale mesh.

MATCH YOURSELF WITH REUSED MATERIAL

- 1 Backpad
- 2 Seatpad
- 3 Armrest
- 4 Gas stem
- 5 Footbase
- 6 Castors

Designed for Longevity

The RH Mereo is designed and crafted for long-term use and performance.

Modular Components

Each chair is built from replaceable modules, allowing worn parts to be swapped instead of replacing the entire product.

Highly Recyclable

Designed for easy disassembly and material sorting, supporting circular design.

Responsible Materials & Efficient Use

We choose materials that meet recognised standards and minimise material use, reducing our environmental footprint.

Built to last

The result is a chair that lasts longer and contributes to a healthier indoor environment.
